PROFESSIONAL SUMMARY

ICT Application Development graduate with hands-on experience in front-end and back-end development. Currently building full stack skills through the FNB App Academy, an AI Acceleration Program, with complete ProHub STACK internship, AI and prompt engineering coursework from SheCodes, and Google Coursera. Works across C#, JavaScript, Python, and React, with a growing interest in AI assisted development.

PROJECT EXPERIENCE

- **CartCraft** — A full-featured e-commerce storefront with secure login, cart, and Stripe checkout, built during my ProStackHub internship. React, Node.js, Azure SQL, Stripe
Live: <https://pro-stack-hub-cart-craft.vercel.app/>
 - **Shelf Life** —A personal reading tracker for searching books and logging reading progress, built during my ProStackHub internship. React, Node.js, Azure SQL
Live: <https://pro-stack-hub-shelf-life.vercel.app/>
 - **PetCare Management System** — A group academic project, helping vet clinics and pet care centres manage pet registrations, owner details, and appointment scheduling. C#, ASP.NET MVC, SQL Server, Azure
Live: <https://petcare-lee-dbgbfahrmauaga0.westus3-01.azurewebsites.net>
 - **Aura** — An AI workplace assistant that drafts emails and turns meeting notes into action items, built entirely through AI prompting with no manual code. AI Prompting, No-Code
