PROFESSIONAL SUMMARY

ICT Application Development graduate with a strong foundation in software development, mobile application development, systems analysis and database design. Experienced in building real world applications using C#, ASP.NET MVC, JavaScript, and SQL Server. Passionate about developing efficient, user focused systems and eager to contribute to a professional software development environment.

WORK EXPERIENCE

Projects / Development Experience

Durban University of Technology | 2022–2025

- Developed web applications using C#, ASP.NET MVC, applying object oriented programming principles
- Built mobile applications using Android Studio with real world functionality
- Designed and integrated databases (SQL Server) into applications
- Integrated RESTful APIs to fetch and display real time data
- Gathered requirements, created system designs, and documented technical solutions
- Performed testing, debugging, and system integration to ensure reliability
- Worked in team environments using SDLC and Agile methodologies
- Used GitHub for version control and collaboration

EDUCATION

Diploma in ICT- Application Development

Durban University of Technology

Feb 2023- Nov 2025

Higher Certification in IT

Durban University of Technology

Jan 2022- Dec 2022

ADDITIONAL INFORMATION

• TECHNICAL SKILLS

- Programming: C#, JavaScript, Python
- Web Technologies: HTML, CSS, ASP.NET MVC, REST APIs
- Tools & Platforms: GitHub, Android Studio, Cisco Packet Tracer

• CERTIFICATIONS & AWARDS/ACTIVITIES

- Python Essentials Certificate
- IBM Full Stack Software Developer Professional Certificate (In Progress)
- SheCodes Certificates (In Progress)
- Participant : JCI Hackathon Programme
- Cisco Networking Fundamentals : Packet Tracer
- Nemisa Mobile Literacy & Cybersecurity Training
